Steyning CC AV Challenge

Following our Audio Visual session in November, it would be great to actually produce some AVs to share with each other at the club.

These things always endure best when there is a practical follow-up. So:

In the first quarter of 2023, can you produce an AV sequence?

The Guide I issued should help you to get started but I can also arrange an online Q&A early in the new year if you need any initial help with ideas and music.

- Your sequence should be compiled either as a PTE .exe (from PTE AV studio) or as an MP4 video if you are using any other source program;
- It can be on any theme of your choice;
- You could do this alone or as a small collaboration;
- It should be approximately 3-5 minutes in duration (let me know if you're thinking of a longer piece);

If you think you'd like to participate – no commitment at this stage – do let me know so I can gauge interest. Best to get your ideas flowing as early as possible.

Closing date for submissions will be in early April. Then, on 26 April, we will have a Sharing session to see and enjoy and celebrate our productions, and maybe take a few sequences forward to our 50th Exhibition in the Summer.

Happy AVing …
